(412) 537-2016

EDUCATION

Carnegie Mellon University

Pittsburgh, PA · Aug 2015 - May 2019

B.S. in Chemistry / Biological Chemistry Track, with minors in
Human-Computer Interaction and Biomedical Engineering
Cumulative GPA: 3.92 / 4.00

EXPERIENCE

GlaxoSmithKline, UX Design Intern

Philadelphia, PA · Jun - Aug 2018

Designed an internal community website for data scientists and a repository of operational resources for the Data CoE department. Collaborated with other designers, engineers, scientists, and administrators from global sites.

Das Lab, CMU, Undergraduate Researcher

Pittsburgh, PA · May - Dec 2017

Designed and improved an economical device for the electroelution of nucleic acids from polyacrylamide gel pieces. Presented in the 2017 Rustbelt RNA Meeting.

PROJECTS

Financial Feud

Partnered in a team of five to design a service for PNC Bank to engage with families and increase teenagers' and parents' financial literacy. Prototyped a mobile application for delivery of the service.

Silta

Cooperated in a team of three to design a vehicle for Bridgestone that forms assemblies to create community spaces for facilitating people's social interactions. Prototyped a 3D model of the vehicle.
